Diego Alejandro Quiñones Rudon

I'm a **System Engineer and Software Developer graduated with honors** with expertise in web development and mobile app development, algorithm analysis, quality assurance, and agile development methodology. Eager to put into practice my knowledge and help bringing products with quality and efficiency to clients

EXPERIENCE

TRUEXTEND, Cochabamba: *Internship*

February 2023 - November 2023
- Developed a new service in the website to administrate and visualize the human resources on the business.
- Created database models and API for dynamic web applications.
- Collaborated with developers, designers and QA to put in production software.
- Troubleshooted and resolved bugs within the main site of the company.

ONE CLICK, Cochabamba: *Developer*

November 2024 - Present

- The first few months I worked in customer service and product sales. Later I was assigned to develop a management system for improving the business process.
- Started a development from scratch to build a website for a resource management with database design, requirements engineering and UI design
- Developed from scratch a website for a resource management using SQL database, .NET with MVC, React and Tailwind as technology stack

EDUCATION

Bolivian Catholic University "San Pablo", Cochabamba: *Professional Degree in Software Systems Engineering.*
